HIGHEST EDUCATION

B. TECH (Mech)

Avanthi Institute of Engineering and Technology, Vizianagaram 2020-2023

SKIILLS

- ✓ Java
- ✓ Spring Boot
- ✓ Spring AI
- ✓ Hibernate
- ✓ Apache Kafka Basic
- ✓ Microservice
- ✓ HTML
- ✓ CSS
- ✓ Java Script
- ✓ Angular
- ✓ Bootstrap
- ✓ SQL / My SQL
- ✓ Git Hub
- ✓ LLMs

PROJECTS

- ✓ E-Commerce Application
- ✓ Hospital Management System

CERTIFICATIONS

- ✓ Learning Spring Boot
- ✓ Creating Spring Boot Microservices

Executive Summary

- A **Full-Stack Developer** with **1+ years** of experience in creating **scalable applications** using **Java, Spring Boot, Angular, and REST APIs**, with expertise in **Frontend-Backend integration**.
- Proficient in **Bootstrap, HTML, JavaScript, and Hibernate**, with strong skills in **database management** using **Oracle SQL and MySQL.**
- Well-versed in **CI/CD pipelines, GitHub, and Microservices architecture**, continuously exploring **AI-driven solutions** with **Spring AI and LLMs.**

Work Experience

Associate Software Developer   Sonix Human Capital Solution Pvt Ltd

📅 **Nov 2nd, 2023 - Present**   📍**Hyderabad, India**

- **Specialized in building scalable applications** with efficient and seamless integration between front-end and back-end systems
- **Proven experience in developing high-performance APIs**, contributing to a **30% improvement in overall system efficiency.**

E-Commerce Application

- Architected and developed **a robust, scalable Full-Stack E-Commerce platform** using **Spring Boot, Angular** and **MySQL**, delivering seamless **product discovery, dynamic cart operations, and secure order checkout** functionalities
- Engineered **Role-Based Access Control (RBAC)** leveraging **Spring Security with JWT Tokens**, enhancing security and enabling differentiated user privileges for **Admins** and **Customers** with a **25%** improvement in access control efficiency
- Designed and deployed **RESTful APIs** for end-to-end operations including **Product Catalog Management**,**User Authentication**, **Order Processing**,and Payment Integration, ensuring **100% backend-frontend** interoperability.
- Enhanced **UI/UX** responsiveness by **20%** using **Angular Material & Bootstrap** , incorporating features such as **product search, filtering, pagination**, and **Wishlist**—optimized for mobile and desktop platforms.
- Integrated **Git and GitHub** for **version control** and **CI/CD** workflows, facilitating smooth collaboration, code reviews, and deployment pipelines across development environments.
